

# MLDX Wireless Laser Desktop Mouse

**USB, Adjustable Three-Level Resolution, Five Buttons  
with Scroll Wheel**

**Adjustable three-level resolution with wireless laser  
performance.**

Model  
177375

The MANHATTAN® MLDX Wireless Laser Desktop Mouse combines modern design with advanced precision and high-stabilization performance. Its top-mount push-button instantly shifts resolution from 800 to 1600 dpi to suit a wide range of applications, including routine computing tasks or computer games and editing requiring a fine touch. Its full-sized shape and five-button configuration provide direct access to essential commands with minimal wrist movement. A non-slip texture applied to critical surfaces helps provide a secure, comfortable grip. The remarkably small yet powerful USB micro receiver with 2.4 GHz technology provides an effective range of up to 7 m (30 ft.) and stores in a special onboard compartment or remains installed for true wireless convenience. An auto power management and on/off switch help maintain proper battery levels for reliable operation. Plug and Play capability and Windows XP/Vista and Mac OS 9.0 and higher compatibility offer quick and easy installation. With no mechanical or rolling parts to wear or fail, the MLDX Wireless Laser Desktop Mouse requires little maintenance for long, dependable service.

## Lifetime Warranty

Strict manufacturing standards ensure the highest quality in all MANHATTAN products. All items carry a full Lifetime Warranty — the strongest quality commitment anyone can make.
